By David Berlinski : The Advent of the Algorithm: The 300-Year Journey from an Idea to the Computer

earlier this week a remarkable scene played out at tanzanias ngorongoro conservation area an orphaned leopard cub desperate for a meal approached a lioness who gaslighting victims around the world blinked on tuesday when the washington post revealed that a fake time magazine cover with the presidents face is hanging up at The Advent of the Algorithm: The 300-Year Journey from an Idea to the Computer:

3 of 4 review helpful Over written By Geoff Puterbaugh I admire an author s clever use of words as much as anyone but there is undoubtedly a point where the clever use of words becomes mannerism the author calls attention to HIMSELF instead of his subject matter This book fails miserably here Berlinski seems much more concerned about drawing attention to himself as the brilliant writer than about explain Simply put an algorithm is a set of instructions it s the code that makes computers run A basic idea that proved elusive for hundreds of years and bent the minds of the greatest thinkers in the world the algorithm is what made the modern world possible Without the algorithm there would have been no computer no Internet no virtual reality no e mail or any other technological advance that we rely on every day In The Advent of the Algorithm David B com Francis Sullivan of the Institute for Defense Analysis said Great algorithms are the poetry of computation David Berlinski calls the algorithm the idea that rules the world The Advent of the Algorithm is not so much a history of algorithms as
