2 of 2 review helpful Not At All Self Contained By Jamie O This book reaches in a lot of directions wanting to be useful for studying Programming Languages and AI Programming It s meant as a practical addition to a theory driven

book by the same authors This means that the book covers a lot of ground and not very comprehensively In fact this book does not stand on its own If you do not have an outside reference AI Algorithms Data Structures and Idioms in Prolog Lisp and Java Rarely used book in good condition
