By Ralf Herbrich : Learning Kernel Classifiers: Theory and Algorithms (Adaptive Computation and Machine Learning) download and read learning kernel classifiers theory and algorithms adaptive computation and machine learning coin du feu find helpful customer reviews and review ratings for learning kernel classifiers theory and algorithms adaptive computation and machine learning Learning Kernel Classifiers: Theory and Algorithms (Adaptive Computation and Machine Learning):

Linear classifiers in kernel spaces have emerged as a major topic within the field of machine learning. The kernel technique takes the linear classifier a limited but well established and comprehensively studied model and extends its applicability to a wide range of nonlinear pattern recognition tasks such as natural language processing, machine vision and biological sequence analysis. This book provides the first comprehensive overview of both the theory and algorithms.
