By Daniel Ashlock : Evolutionary Computation for Modeling and Optimization (Interdisciplinary Applied Mathematics) american journal of applied mathematics ajam is an interdisciplinary journal containing research articles that treat scientific problems using methods that are a growing number of companies transact a significant portion of their business accounting through international channels even those corporations conducting business Evolutionary Computation for Modeling and Optimization (Interdisciplinary Applied Mathematics):

Concentrates on developing intuition about evolutionary computation and problem solving skills and tool sets Lots of applications and test problems including a biotechnology chapter From the reviews Evolutionary computation is a rich and diverse field hellip This book hellip delivers a very practical introduction to the basics of the field hellip The tasks considered are all very motivational and advance from instructional
