11 of 11 review helpful Excellent learning tool with useful exercises By DaveCoast I m currently working though the final chapter exercise and feel the I ve gotten much more that my money s worth Even though I have a strong technical background I had zero JavaScript experience when I kindled this book Warning the process is not quick but it is very rewarding if you code your own exercises I m very pleased It rsquo s time for a current definitive JavaScript book and in this comprehensive beginner rsquo s guide bestselling author Larry Ullman teaches the language as it is

implemented today Larry demonstrates how to build upon JavaScript rsquo s ease of use while demystifying its often cryptic syntax especially for those who have not programmed before This book enforces modern JavaScript rsquo s best practices and embraces key Web development approaches such as progre A breath of fresh air in the over complicated world of JavaScript books This is one I ll keep close by nbsp Jay Blanchard nbsp
