13 of 15 review helpful lots of examples poor explanation By Skipper42 This book was okay and overall I d recommend it However you need to be aware of what you re getting here This book is mostly a large collection of

ready made javascript scripts The commentary on each page is just barely enough to explain the code but doesn t really go into much depth I wouldn t recommend this book if you re actually trying to LE With the proliferation of new standards compliant browsers virtually all users and Web sites can successfully use the latest JavaScript techniques nbsp This task based visual reference guide has been fully revised and uses step by step instructions and plenty of screenshots to give beginning and intermediate scripters what they need to know to keep their skills up to date Readers can start from the beginning to get a tour of the programming About the Author Tom Negrino is the author of dozens of books including Visual QuickStart Guides covering Keynote and Contribute and Visual QuickProject Guides on PowerPoint Quicken and upgrading Mac OS X Dori Smith is the author of Java 2 Visual QuickStart
