By David Taniar, Clement H. C. Leung, Wenny Rahayu, Sushant Goel : High Performance Parallel Database Processing and Grid Databases grid computing in oracle database 10 g on the path toward this grand vision of grid

computing companies need real solutions to support their incremental moves gpu accelerated computing is the use of a graphics processing unit gpu together with a cpu to accelerate deep learning analytics and engineering applications High Performance Parallel Database Processing and Grid Databases:

The latest techniques and principles of parallel and grid database processing The growth in grid databases coupled with the utility of parallel query processing presents an important opportunity to understand and utilize high performance parallel database processing within a major database management system DBMS This important new book provides readers with a fundamental understanding of parallelism in data intensive applications and demonstrates how to From the Back Cover The latest techniques and principles of parallel and grid database processing The growth in grid databases coupled with the utility of parallel query processing presents an important opportunity to understand and utilize high perfo
