course descriptions carry behind the name and number a parenthesis indicating the credit hours lecture hours and the Flexible Pattern Matching in Strings: Practical On-Line Search Algorithms for Texts and Biological Sequences:

Recent years have witnessed a dramatic increase of interest in sophisticated string matching problems especially in information retrieval and computational biology This book presents a practical approach to string matching problems focusing on the algorithms and implementations that perform best in practice It covers searching for simple multiple and extended strings as well as regular expressions and exact and approximate searching It includes all the most sig
