By Steven M. LaValle : **Planning Algorithms** automated planning and scheduling this article includes a list of references but its sources remain algorithms for planning classical planning planning algorithms steven m lavalle on amazon free shipping on qualifying offers planning algorithms are impacting technical disciplines and industries Planning Algorithms:

Planning algorithms are impacting technical disciplines and industries around the world including robotics computer aided design manufacturing computer graphics aerospace applications drug design and protein folding Written for computer scientists and engineers with interests in artificial intelligence robotics or control theory this is the only book on this topic that tightly integrates a vast body of literature from several fields into a coherent source for
