7 of 7 review helpful Excellent novice to guru quality book By jbarker4682 I ve been using LINQ for about a year mostly LINQ to objects and LINQ to Xml but recently started a new project using extensive LINQ to SQL The book begins by laying a solid easy to understand foundation explaining the core concepts in just the right amount of detail

before building up to more complicated topics Reading this book helped Dig into LINQ and transform the way you work with data With LINQ you can query data from a variety of sources including databases objects and XML files directly from Microsoft Visual Basic reg or C Guided by data access experts who ve worked in depth with LINQ and the Microsoft development teams you ll learn how NET Framework 4 implements LINQ and how to exploit it Clear examples show you how to deliver your own data access soluti About the Author Paolo Pialorsi is a consultant trainer and author who specializes in developing distributed applications architectures and Microsoft SharePoint enterprise solutions He is a founder of DevLeap a company focused on providing content and
