author cracking the coding interview cracking the pm interview product manager and cracking the tech career one of these is amazons best selling interview book not all of your coding education should be done in front of a computer these 15 books will help hone your abilities and put your approach to developing in sharp focus Cracking the Coding

Interview: 189 Programming Questions and Solutions:

95 of 98 review helpful If you only want to use one book this is it By David C This is obviously the must have book to prepare for your SWE SDE interview I have some small quibbles with how some of the problems were worded but the level of difficulty is very representative of what the big tech companies are using You might even run into these questions in your own interviews since Gayle is choosing questions that are p I am not a recruiter I am a software engineer And as such I know what it's like to be asked to whip up brilliant algorithms on the spot and then write flawless code on a whiteboard I've been through this as a candidate and as an interviewer Cracking the Coding Interview 6th Edition is here to help you through this process teaching you what you need to know and enabling you to perform at your very best I've coached and interviewed hundreds of software engineers About the Author Gayle Laakmann McDowell is the founder and CEO of CareerCup and the author of Cracking the PM Interview and Cracking the Tech Career Her background is in software development She has worked as a software engineer at Google Microsoft and
