By Ryan Benedetti, Ronan Cranley : Head First jQuery: A Brain-Friendly Guide (Brain-Friendly Guides) the ada home page provides access to americans with disabilities act ada regulations for businesses and state and local governments technical a comprehensive guide to font loading strategies; the search for the holy grail how i ended up with element queries and how you can use them today Head First jQuery: A Brain-Friendly Guide (Brain-Friendly Guides):

6 of 6 review helpful Please hire a new proof reader By Mattaus The content of the book and its style of teaching were great But the number of typos and the lack of synchronization between the downloadable code examples and what is written in the book is inexcusable and got to be very irritating When I buy a book I expect that someone has at least

proof read it for blatant errors Clearly somebody dropped the ball in Want to add more interactivity and polish to your websites Discover how jQuery can help you build complex scripting functionality in just a few lines of code With Head First jQuery you ll quickly get up to speed on this amazing JavaScript library by learning how to navigate HTML documents while handling events effects callbacks and animations By the time you ve completed the book you ll be incorporating Ajax apps working seamlessly with HTML and C About the Author Ryan Benedetti holds a Master of Fine Arts degree in creative writing from the University of Montana and works as a Web Developer Multimedia Specialist for the University of Portland He works with Flash ActionScript Adobe s Creative Sui
