international journal of engineering research and applications ijera is an open access online peer reviewed international journal that publishes research tutorials several papers provide tutorial material suitable for a first introduction to

learning in gaussian process models these range from very short williams Parameterized Complexity (Monographs in Computer Science):

An approach to complexity theory which offers a means of analysing algorithms in terms of their tractability The authors consider the problem in terms of parameterized languages and taking k slices of the language thus introducing readers to new classes of algorithms which may be analysed more precisely than was the case until now The book is as self contained as possible and includes a great deal of background material As a result computer scientists mathematici
