By Mahmoud Parsian : Data Algorithms: Recipes for Scaling Up with Hadoop and Spark hadoop in 24 hours sams teach yourself 2017 by jeffrey aven top 50 apache hadoop interview questions and answers 2016 by knowledge powerhouse 2017 6 4 944 Stonedrive for business Data Algorithms: Recipes for Scaling Up with Hadoop and Spark:

21 of 21 review helpful Lots of code snippets not too good in concepts By Dimitri K The book provides examples of how to implement some simple data analysis jobs using Map reduce and to some extent Spark Hadoop is probably 3 4 of the content As for data analysis the author does not show any deep knowledge or interest in explaining the methods

They are however pretty basic. The author concentrates on the code which is If you are ready to dive into the MapReduce framework for processing large datasets this practical book takes you step by step through the algorithms and tools you need to build distributed MapReduce applications with Apache Hadoop or Apache Spark. Each chapter provides a recipe for solving a massive computational problem such as building a recommendation system. You'll learn how to implement the appropriate MapReduce solution with code that you can use. About the Author: Mahmoud Parsian Ph.D. in Computer Science is a practicing software professional with 30 years of experience as a developer, designer, architect, and author. For the past 15 years he has been involved in Java server-side databases, MapReduce, and Big Data.
