4 of 4 review helpful Practical Great Book By seamonkey10 So many books seem to want to front load a bunch of theory about for loops and how many bytes a certain statement might take up Generally I understand the concepts but

part of me yearns to get my hands dirty as I find I feel disconnected from true understanding I don't care if it's the simplest thing I want to start doing something and this is where it Third Edition now with bonus chapters Have you ever wanted to design your own website or browser application but thought it would be too difficult or just didn't know where to start Have you found the amount of information on the Internet either too daunting or not geared for your skill set or worse just plain boring Are you interested in learning to program PHP and have some fun along the way If so then The Joy of PHP by Alan Forbes is the book for you Alan sta
