By Douglas McIlwraith, Haralambos Marmanis, Dmitry Babenko : Algorithms of the Intelligent Web 17 th international conference on intelligent text processing and computational linguistics april 3 9 2016 eur konya turkey dedicated to the memory of adam weve created a premium beer that uses complex machine learning algorithms to improve itself from your feedback after youve tried one of our four bottled Algorithms of the Intelligent Web:

5 of 5 review helpful Not a bad book but unable to recommend By Antonio I was disappointed with this book and unfortunately cannot recommend it to other readers From my perspective there are a number of key flaws The first is that the explanations are fairly short and also rely on the reader having a certain amount of prerequisite knowledge I m

already somewhat familiar with machine learning so I understood the topics Summary Algorithms of the Intelligent Web Second Edition teaches the most important approaches to algorithmic web data analysis enabling you to create your own machine learning applications that crunch munge and wrangle data collected from users web applications sensors and website logs Purchase of the print book includes a free eBook in PDF Kindle and ePub formats from Manning Publications About the Technology About the Author Douglas McIlwraith earned his first degree at Cambridge in computer science before completing a PhD in sensor fusion from Imperial College in London He is a machine learning expert currently working as senior data scientist for a
