By Ke-Lin Du, M. N. S. Swamy : Search and Optimization by Metaheuristics: Techniques and Algorithms Inspired by Nature

3 optimization methods applied to renewable and sustainable energy energy resources are very important form an economic and political perspective for iran university of science and technology was originally founded in 1929 as the first iranian institution to train engineers located in tehran it consists of 14 Search and Optimization by Metaheuristics: Techniques and Algorithms Inspired by Nature:

This textbook provides a comprehensive introduction to nature inspired metaheuristic methods for search and optimization including the latest trends in evolutionary algorithms and other forms of natural computing nbsp Over 100 different types of these methods are discussed in detail nbsp The authors emphasize non standard optimization problems and utilize a natural approach to the topic moving from basic notions to more complex ones nbsp
