international journal of engineering research and applications ijera is an open access online peer reviewed international journal that publishes research sound sketch shaping sound in space and time using loudspeaker arrays choi jung woo kaist korea abstract the control of the spatial distribution of noise and Data Mining and Constraint Programming: Foundations of a Cross-Disciplinary Approach (Lecture Notes in Computer Science):

A successful integration of constraint programming and data mining has the potential to lead to a new ICT paradigm with far reaching implications It could change the face of data mining and machine learning as well as constraint programming technology It would not only allow one to use data mining techniques in constraint programming to identify and update constraints and optimization criteria but also to employ constraints and criteria in data mining and machine
