From Eduardo Sanchez : Towards Evolvable Hardware: The Evolutionary Engineering Approach (Lecture Notes in Computer Science) Towards Evolvable Hardware: The Evolutionary Engineering Approach (Lecture Notes in Computer Science):

Evolutionary computing inspired by the biological world is one of the emergent technologies of our time Being essentially a software activity it has been successfully applied e g for optimization and machine learning in various areas The tremendous increase in computational power and more recently the appearance of a new generation of programmable logic devices allow for a new approach to designing computing machines inspired by biological models it is now poss
