**From Brand: Springer : Geometric Modeling and Algebraic Geometry** geometry worksheets for 4th grade 5th grade and middle school high school modeling print this page modeling links classroom mathematics and statistics to everyday life work and decision making modeling is the process of Geometric Modeling and Algebraic Geometry:

Geometric Modeling and Algebraic Geometry though closely related are traditionally represented by two almost disjoint scientific communities Both fields deal with objects defined by algebraic equations but the objects are studied in different ways In 12 chapters written by leading experts this book presents recent results which rely on the interaction of both fields Some of these results have been obtained from a major European project in geometric modeling
