From Springer : Music-Inspired Harmony Search Algorithm: Theory and Applications (Studies in Computational Intelligence)

as everyone is undoubtedly aware by this point on august 21st folks across the country will be able to see a total solar eclipse the first one visible coast to creativity is a phenomenon whereby something new and somehow valuable is formed the created item may be intangible such as an idea a scientific theory a musical Music-Inspired Harmony Search Algorithm: Theory and Applications (Studies in Computational Intelligence):

Calculus has been used in solving many scientific and engineering problems For optimization problems however the differential calculus technique sometimes has a drawback when the objective function is step wise discontinuous or multi modal or when decision variables are discrete rather than continuous Thus researchers have recently turned their interests into metaheuristic algorithms that have been inspired by natural phenomena such as evolution animal behavior From the Back Cover Calculus has been used in solving many scientific and engineering problems For optimization problems however the differential calculus technique sometimes has a drawback when the objective function is step wise discontinuous or multi mo
