Science):

Replication is a topic of interest in the distributed computing distributed systems and database communities Although these communities have traditionally looked at replication from different viewpoints and with different goals e g performance versus fault tolerance recent developments have led to a convergence of these different goals The objective of this state of the art survey is not to speculate about the future of replication but rather to understand t From the Back Cover Replication is a topic of interest in the distributed computing distributed systems and database communities Although these communities have traditionally looked at replication from different viewpoints and with different goals e g per
